Built to Last. Designed to Impress

COLLECTION
2025

MADE IN THE USA.

USA collections are manufactured in a cutting-edge facility in Tennessee. Our plant is centrally located to ensure faster and more convenient logistic services for the North American continent.

ADVANCED TECHNOLOGY

Decades of experience paired with the most modern technology puts our Product line on the leading-edge of porcelain stoneware design. Producing products that are both beautiful and technical is our highest priority.

MADE FOR USA, WITH PASSION

Our products are developed to meet the technical and performance needs for any project, including full compliance to local standards and requirements. Homes and businesses can expect not only a beautiful and modern range of styles, but also peace of mind for choosing a long-lasting, high quality material.

THE EXCELLENCE OF OUR USA PORCELAIN STONEWARE

HEALTH AND SAFETY

Porcelain stoneware is the best choice for those who care about health and safety. Porcelain's non-porous surface remains hygienic over time by avoiding the absorption of unwanted germs and bacteria. It's completely hypoallergenic, VOC free and won't emit harmful substances. Due to porcelain's non-absorbent properties, it is safe to use aggressive detergents although it's easy to clean and resistant to staining.

ECO-FRIENDLY AND NONTOXIC: WON'T RELEASE HARMFUL SUBSTANCES

HYGIENIC AND SAFE

NO CHEMICAL WATERPROOFING AGENTS, PAINT, OR RESIN

EASY TO CLEAN AND STAIN RESISTANT

HEAT AND FIRE RESISTANCE

Porcelain stoneware is naturally fireproof, and won't burn in the event of a fire. Even in intense heat porcelain maintains its shape and never releases toxins into the atmosphere.

HEAT RESISTANT

FIRE RESISTANT

RESISTANT TO SUN DAMAGE AND COLOR FADING

VERSATILITY AND SUSTAINABILITY

The choice of an eco-sustainable, durable and versatile material for floors and walls means a lot of benefits for the environment. Our porcelain stoneware is produced with non-exhaustible, natural, raw materials, that are easy to install, and, at the end of its long life, it is easy and cheap to dispose of 100% recyclable.

EASY TO INSTALL

WATER AND DAMP RESISTANT

IDEAL FOR HEATED FLOORS

BEAUTY & DURABILITY

Porcelain tiles remain as beautiful as the first day even when they are exposed to different types of stress. They resist scratches and abrasions and are able to withstand heavy loads. This mean it is a material suitable for driveways and high traffic places.

LOAD BEARING AND STRESS RESISTANT

FROSTPROOF

SCRATCH AND ABRASION RESISTANT

THERMAL SHOCK RESISTANT

RESISTANT TO SMOG AND POLLUTION

RESISTANT TO HOUSEHOLD AND INDUSTRIAL CHEMICALS
